Premier's Go-Kits

Connectivity on the Spot

PREMIER WIRELESS™

During a state of emergency, establishing strong and reliable communication is critical.

We're here to help!

Premier's Go-Kit provides continuous communication during critical incidents and events by providing preprogrammed and active smart devices, tablets, and hotspots, all readily available for immediate deployment. When facing an emergency such as a hurricane, fire, or flood, this kit equips you with the essential tools to ensure uninterrupted communication when it counts the most.

Your Premier Go-Kit Options

We can build to your needs with 5G

Can you maintain connectivity?

The Premier Go-Kit is always active and ready to deploy.

Premier Wireless helps reinforce communication continuity plans during an emergency with ease. You select mobile devices and accessories and pair them with low-cost plans.

Manage:

- Reserve devices and phone lines to publish phone numbers in your emergency planning documents.
- Receive devices inventoried, packaged, pre-programmed, and labeled

Activate:

- Always activated and ready to use
- White-glove support

Priority Services:

Access to Wireless Priority Services (WPS) is available based on federal eligibility standards, prioritizing your traffic during high-volume network congestion.

Let's break it down for you!

Premier's Go-Kit + Charging Kit w/Smart Phones

- Your Choice of Devices: Phones, Tablets, Hotspots
- Portable Battery Charger
- USB Charging Hub and Cables
- Other Accessories as Requested
- Rugged Carrying Case with Foam Insert
- 1-Year MDM Software Licenses (if applicable)
- Devices Preprogrammed and Labeled

Premier's 5G Mobile Network-to-Go is the perfect companion to create a Wide Area Network (WAN) that is scalable to accommodate over 500+ connections. Additionally, it can be built to include an MDT, phones, and more.

Stay ready. Stay connected. Stay in control — wherever your mission takes you.
