

Rugged Communication Built for Fire & EMS

Stay Connected When Conditions Get Tough

For Fire and EMS teams, communication needs to work wherever the job takes you — from the station to the scene and everywhere in between. Premier Wireless delivers rugged mobile solutions designed to support reliable communication, real-time coordination, and field productivity in demanding public safety environments.

With Sonim ultra-rugged devices, teams get purpose-built hardware combined with the connectivity and technology they need to stay connected when it matters most.

More Than Push-to-Talk

Today's response teams need more than voice communication. Sonim devices can support:

GPS & Location

Help teams maintain visibility and support location-based operations.

Emergency Alerts

Provide access to emergency alert and panic-button capabilities.

Device Management

Sonim SCOUT supports device provisioning, management, kiosk mode, account administration and cost control.

Digital Workflows

Support digital forms, reporting, data analysis and location-based applications.

Built for the Reality of the Field

Fire and EMS personnel work in environments where ordinary mobile devices can fall short. Sonim devices are designed for demanding conditions, with features built around durability, usability, and reliable communication.

Key capabilities include:

- ✓ Dedicated OneTouch Push-to-Talk for fast, reliable communication
- ✓ Built-in Band 14 for public safety networks
- ✓ Multi-shift, removable batteries for extended field use
- ✓ 100dB+ speakers with noise cancellation for clear communication in high-noise environments
- ✓ Waterproof, fully submersible and resistant to drops, impacts, shocks, pressure and punctures
- ✓ Sealed against dust and micro-particles, with oil and chemical resistance
- ✓ Designed to withstand harsh cleaning and sanitizing agents
- ✓ 3-year comprehensive warranty

Choose the Right Device for the Job

Sonim XP10

Rugged smartphone for connected field operations

Designed for teams that need a larger touchscreen and access to applications, workflows and data in the field.

Sonim XP5plus

Rugged PTT device for fast, reliable communication

Built around simple, accessible communication with tactile controls, loud audio and long battery life.

Sonim XP3plus

Compact rugged flip phone

A straightforward option for personnel who need reliable communication without the complexity of a smartphone.

Keep Your Team Connected. Keep Your Response Moving.

From communication and device management to rugged hardware and field applications, Premier Wireless helps public safety agencies build connected solutions around the way their teams actually work. Talk to Premier Wireless about Fire & EMS connectivity and rugged mobile solutions.
