

EverLink for Construction & Job Sites Connectivity Where Work Happens

Portable and fixed connectivity solutions designed to keep teams, systems, and operations connected on job sites — even before infrastructure exists.

Job sites don't come with connectivity.

- Temporary locations
- No existing infrastructure
- Multiple teams and systems

But operations depend on being connected.

What is Everlink?

EverLink is a flexible connectivity ecosystem that provides reliable internet access and communications in virtually any environment—from permanent facilities and vehicle fleets to remote sites, field operations, and portable deployments.

What's Included

- Portable network-in-a-box (To-Go)
- Fixed site connectivity (EverLink)
- LTE/5G + Starlink Mini
- Multi-network failover
- Rapid deployment setup
- Professional installation available

Why construction teams rely on Everlink

- ✓ **Instant Job Site Connectivity**
Deploy connectivity before infrastructure is in place
- ✓ **Flexible Deployment**
Scale from temporary to permanent setups
- ✓ **Keep Teams Connected**
Support communication, coordination, and safety
- ✓ **Enable Digital Operations**
Power project management, reporting, and systems

Use Cases

New construction sites

Infrastructure projects

Remote builds

Temporary offices and trailers

If the site isn't connected, the job slows down.

Bring Connectivity to Every Job Site — From Day One
