Vehicle-Based Connectivity for Construction Operations

Keep every truck, crew, and job site connected.

Foreman trucks, service vehicles, and equipment trailers often serve as mobile job site command centers. From accessing digital blueprints and change orders to coordinating crews and tracking equipment, construction teams depend on reliable connectivity wherever the job takes them.

Premier Wireless delivers rugged, vehicle-optimized routers powered by T-Mobile's network — providing secure, always-on connectivity with automatic failover to keep projects moving and crews productive.

Supported Hardware

Peplink BR1 Mini

Peplink BR1 Pro

InHand IR302

Katalyst

Key Features

- Designed specifically for vehicle deployment
- Automatic cellular failover for uninterrupted connectivity
- Secure VPN and fleet-grade network management
- Dual SIM & multi-carrier capabilities (model dependent)
- Rugged, vibration-resistant hardware built for the road

Construction Benefits

- Maintain communication between job sites and the office
- Access updated plans, blueprints, and change orders in real time
- Enable GPS tracking and fleet visibility
- Support in-vehicle tablets, cameras, and crew devices
- Maintain operations during office or ISP outages

Powered By: Premier Wireless powered by T-Mobile's Network

Keep your crews and vehicles connected across every job site.
