

CPR³ Hospitality Workforce Hub

Everything your staff needs to deliver great service
— in one secure, role-based device.

The Problem

Hotel staff rely on multiple devices, personal phones, and disconnected systems to communicate and manage daily operations.

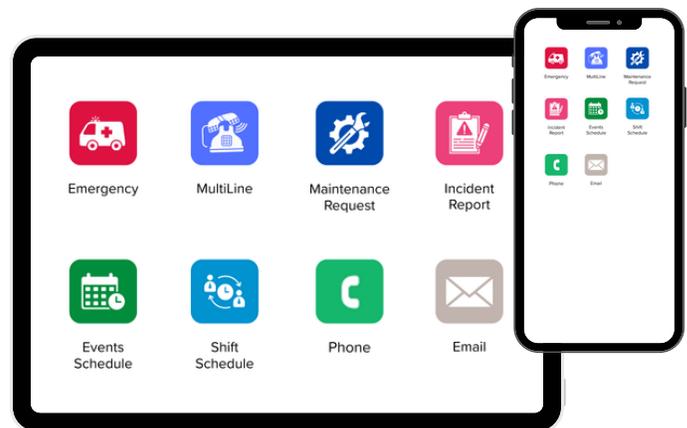

- Messages get missed.
- Sensitive data is exposed.
- Staff are distracted by non-work apps.
- Communication breaks down during outages.
- Unmanaged devices create risk, inefficiency, and lost productivity.

The Solution

Hotels need one secure, reliable communication platform —tailored to how each team works.

CPR³ delivers purpose-built, fully managed mobile devices —powered by T-Mobile 5G—so every department stays connected, focused, and productive anywhere on the property.

Each device is customized by role and department, ensuring staff only see the apps, tools, and features they need to do their job.

Key Capabilities

- ✔ Role-based app access (housekeeping, front desk, maintenance, events, security)
- ✔ Locked-down access to approved hotel apps only
- ✔ Unified voice, messaging, and alerts
- ✔ Reliable 5G connectivity across the property
- ✔ Remote device management and updates
- ✔ Centralized control, monitoring, and security
- ✔ Secure, scalable deployment across teams and locations

What This Enables

- ✔ Seamless communication across all hotel departments
- ✔ Increased staff productivity and faster response times
- ✔ Secure, controlled access to hotel systems
- ✔ Reliable connectivity during network or Wi-Fi outages
- ✔ Simplified device management for IT and operations

One Platform. Configured for Every Team.

**Housekeeping • Front Desk • Maintenance
• Events • Security • Management**

Empower your entire hotel team.
