

Connectivity That Elevates the Guest Experience

Reliable, secure connectivity on and off property — across every room, floor, and shared space.

The Problem

Today's guests expect fast, reliable Wi-Fi everywhere on your property.

When guest Wi-Fi underperforms:

- Guests get frustrated.
- Reviews suffer.
- Loyalty declines.
- Staff face more complaints.
- You lose visibility into guest needs and behaviour.
- Communicating with drivers or staff off property becomes difficult

Poor Wi-Fi impacts your reputation and limits your ability to deliver modern guest experiences. Hotels need secure, high-performance Wi-Fi that works flawlessly in every room and every space.

The Solution

Guest Wi-Fi Solutions from Premier Wireless

Premier Wireless delivers fast, secure connectivity powered by T-Mobile's advanced 5G network and enterprise-grade hardware — giving hotels seamless coverage across the entire property and for operations that extend beyond it.

What This Enables

- ✔ Fast, reliable Wi-Fi in every room and common area
- ✔ Branded Wi-Fi portals for a professional guest experience
- ✔ Secure separation between guest and hotel operations
- ✔ Connectivity for on-property operations and off-property services like shuttle drivers or mobile staff

How It Works

Cradlepoint E3000 Series Router

- ✔ Enterprise-grade, 5G-optimized router
- ✔ Delivers secure, high-speed guest connectivity
- ✔ Supports large hotels and multi-site properties

AG Antenna 12 dBi Yagi

- ✔ High-gain antenna extends wireless coverage
- ✔ Strengthens signal across the entire property
- ✔ Ensures consistent guest connectivity

Together, they deliver a fully managed, property-wide guest Wi-Fi solution.

Fast. Secure. Reliable

Give your guests the connectivity they expect
— and the experience they remember.
