

Future-Ready Communications for Hotel Safety & Compliance

Modernize critical hotel communications with secure, wireless connectivity.

Premier Wireless | Powered by T-Mobile

The Problem

Hotels still rely on outdated analog POTS lines to support critical systems:

- Elevator emergency phones stop working.
- Guest room phones and fax lines become unreliable.
- Fire alarm panels lose connectivity.
- Monthly carrier costs continue to rise.

When these legacy lines fail, safety, compliance, and guest service are at risk. Worse, carriers are actively phasing out POTS infrastructure nationwide.

The Solution

Hotels need a modern, reliable replacement — without disrupting operations.

Communication Hub

- ✔ Portable touchscreen communication device
- ✔ Built-in battery backup for outage protection
- ✔ Priority network access for critical communication

Simplifi VoiceLink

- ✔ Plug-and-play POTS replacement
- ✔ Supports elevators, alarms, fax, and security systems
- ✔ Eliminates costly analog line fees

Peplink POTS to Cellular Adapter

- ✔ Drop-in analog-to-cellular converter
- ✔ Connects emergency phones and hotel systems
- ✔ Secure, reliable wireless connectivity

The Result

- ✔ Reliable elevator and emergency phone connectivity
- ✔ Continuous fire alarm and life safety system communication
- ✔ Lower monthly costs compared to traditional POTS lines
- ✔ Backup communication during power or network outages
- ✔ Future-ready infrastructure for modern hotel operations
