

**Accept Payments Anywhere. Serve Guests Everywhere.**

**Empower your staff to serve, sell, and check out anywhere on your property — without slowing down the guest experience.**

### The Problem

Fixed service points slow hospitality down.

When staff are tied to traditional terminals:

- Guests wait to pay
- Lines build up at the front desk
- Poolside, spa, and event services stall
- Staff lose time walking back and forth
- Service feels transactional instead of personal

In hospitality, speed and convenience are part of the experience—but fixed systems limit how and where staff can serve.

### The Solution
