crexendo® VIP™

Improve Your Insights and Power Your Productivity with AI

Discover how the AI-enhanced Crexendo® VIP™ cloud business communications platform can help your teams get more done.

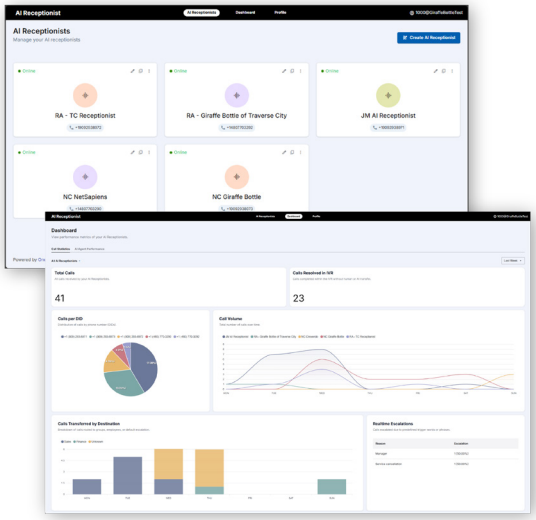

Crexendo AI Receptionist and Orchestrator (CAIRO)

Greet and route every caller with human-like precision.

How it works:

CAIRO for Crexendo® VIP™ transforms every call by combining conversational AI, voice automation, and information about your business to handle routine calls, streamline workflows, and elevate customer experiences.

With CAIRO you can:

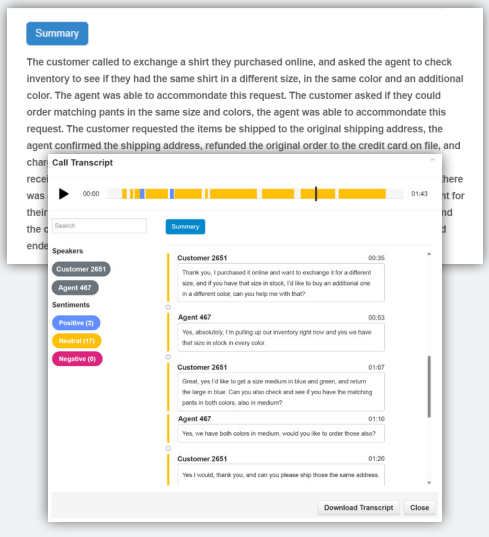

- Answer calls 24/7/365 with natural voices and conversational intelligent
- Intelligently route calls and escalate to live VIP queues, users, or agents
- Automate appointment scheduling and calendar integration
- Utilize multilingual capabilitites for global reach
- Customize AI agent training
- Leverage robust traffic analytics and business insights

AI Call Summaries

Turn every call into a searchable, shareable summary.

How it works:

Crexendo AI transcribes and summarizes recorded calls, including speaker labels, timestamps, sentiment analysis, and more.

With AI Call Summaries* you can:

- Eliminate manual note-taking — review call transcripts and summaries anytime
- Improve documentation of key conversations with customers and teammates
- Evaluate customer service and agent performance with sentiment and speaker insights
- Share call highlights and summaries with participants via email

AI Meeting Summaries

Make every meeting count — without taking notes.

How it works:
AI listens to your recorded meetings and delivers a smart summary with key points, speaker breakdowns, tone analysis, and more.

With AI Meeting Summaries* you can:

- Automatically generate transcripts and highlights from audio and video meetings
- Review discussions by topic, speaker, or sentiment after the meeting
- Send concise summaries and action items to participants
- Maintain a searchable archive of your meeting history

** Requires a VIP Meetings subscription*

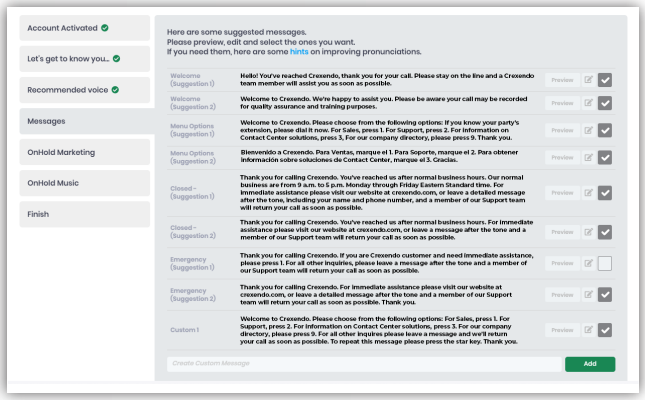

Voice AI Studio

Professional audio content — generated and scheduled in minutes.

How it works:
Voice AI Studio uses your website to create customized on-hold and auto attendant messages, complete with royalty-free music and voice options.

With Voice AI Studio you can:

- Instantly create and schedule professional on-hold and greeting messages
- Promote timely offers, seasonal content, or service updates through custom audio
- Automate holiday switching — return to regular messaging without lifting a finger
