Getac BC04/4K Body Camera

BC-04

BC-04 Body Camera Features

In-Car Integration

Pair the BC-04 with Getac in-car video to eliminate the need for a wireless microphone and range issues. Playback audio and video from both systems together to hear all the action as it happened

Event Based Recording

Pair the BC-04 with Getac trigger box or holster sensor to trigger recordings based on events. Lightbar, gun rack, crash detection and weapon draw are just a few of the ways Getac can automate recordings allowing officers to police and not worry about filming

Cellular Live Streaming

The BC-04 supports Verizon, AT&T, FirstNet and other worldwide cellular networks. Get real time location and live streaming video anywhere. Watch multiple cameras at once and add in in-car streams to get complete situational awareness

All Day Battery /Continuous Recording

With up to 12 hours of recording time, don't worry about cameras dying before the end of a shift. And with continuous recording never miss a thing. Record all shift, then choose which recordings are needed from Getac Enterprise

BC-04 Body Camera Specifications

VIDEO OUTPUT FORMAT

.mp4 (H.264/H.265)

VIDEO OUTPUT RESOLUTION

1920x1080 (1080P), 1280x720(720p)

VIDEO OUTPUT FRAMERATE

30 fps
