

Rugged Video Solutions

Getac Video Solutions for Law Enforcement

Enhance officer safety and streamline operations with Getac's cutting-edge video technology. Our solutions are customizable, scalable, and designed to reduce administrative workload while improving situational awareness in the field.

Key Benefits:

LTE Connectivity

Live stream real-time video for instant situational awareness and location tracking.

4K LPR AI Cameras

Capture high-resolution license plate data with AI precision.

Extended Battery Life

to 13 hours of uninterrupted performance.

Evidence Management

Simplify redaction, video sharing, and case documentation.

Seamless Integrations:

- ✓ Flock Safety (LPR) Sync your in-car video with your current Flock Account
- ✓ Veritone (Redaction) Reduce the time spent on redacting files.
- ✓ Karpel – share videos with the DA and other agencies.
- ✓ CAD integrations with most vendors.

Why Choose Getac?

Our robust ecosystem supports importing external documents/videos, including drone, security footage, report writing, and mobile app access for field notes—giving your agency the tools to work smarter and faster.
