

Getac LPR BASIC

Introducing Getac LPR Basic. A rugged, real-time license plate recognition solution engineered for the demands of frontline policing and built to deliver instant, actionable intelligence when it matters most.

REAL-TIME MOBILE LICENSE PLATE RECOGNITION BUILT FOR THE FRONT LINE

Stay ahead of every threat with Getac LPR Basic—a rugged, real-time license plate recognition (LPR) solution designed specifically for the challenges of the field. Whether your team is patrolling city streets, securing perimeters, or monitoring high-traffic areas, Getac LPR Basic delivers the speed, accuracy, and reliability you need to make fast, informed decisions on the ground.

BUILT FOR THE REALITIES OF LAW ENFORCEMENT

Powered by the CA-NF42 edge AI camera for precise capture and seamlessly integrated with the VR-X20 DVR G3 to record all evidence videos and critical data, LPR Basic provides situational awareness when it matters most. Together with Getac's Evidence Management Software (EVM4), it leverages cutting-edge technology and an open integration platform to deliver real-time insights.

KEY FEATURES OF LPR BASIC

- ✓ **Real-Time License Plate Recognition** - Capture and decode license plates instantly with time stamps and GPS data.
- ✓ **Search on the Spot** - Review and search captured plates directly from the Getac In-Car Display or Getac Evidence Management App. It's fast, easy, and always within reach.
- ✓ **Hot List Alerts in Real Time** - Get notified the moment a plate matches your watch list. Act faster and stay ahead.
- ✓ **Multi-Lane, Multi-Plate Scanning** - Monitor multiple lanes simultaneously. Getac LPR Basic is ideal for busy roadways, checkpoints, and perimeter security.
- ✓ **Full Vehicle Identification** - Beyond the license plate, identify color, make, and model for deeper field intelligence.
- ✓ **Data Control, Your Way** - Manage your own retention policies. Secure, simple, and entirely under your command.

GETAC LPR BASIC

Getac LPR Basic is a powerful, field-ready solution designed to elevate frontline performance. Enhancing situational awareness, accelerating response times, and enabling proactive policing through real-time intelligence and seamless integration.

WHAT SETS GETAC LPR BASIC APART

✓ Smarter Workflow, Proactive Policing

Flag vehicles of interest without slowing down operations and identify threats early and respond before incidents unfold.

✓ Faster Case Closure

Every second matters. Immediate access to critical vehicle data helps speed up investigations and supports rapid response.

✓ Greater Officer Safety

Realtime alerts reduce risk and enhance situational awareness before officers engage.

KEEP YOUR AGENCY CONNECTED & PROTECTED WITH GETAC LPR BASIC

Getac LPR Basic empowers your agency with real-time license plate recognition and reliable field intelligence. Designed to keep teams connected, informed, and ready to respond. From live hot list alerts to full vehicle identification, this rugged, AI-driven solution enhances officer safety, streamlines operations, and supports proactive policing across every shift. Whether you're monitoring busy intersections or patrolling remote areas, Getac LPR Basic delivers the speed, accuracy, and situational awareness your agency needs to stay ahead.
