Sonim Solutions /Manufacturing

# Durable devices that don't believe in downtime.

**Amplify productivity with ultra-loud, ultra-rugged and ultra-reliable solutions from Sonim.**

sonim. PREMIER WIRELESS BUSINESS TECHNOLOGY SOLUTIONS

## From the back office to the factory floor, manufacturing is a fast-paced work environment that demands a lot out of your team and your devices.

You need reliable technology solutions that stand up to the harsh wear and tear and mission-critical communications of the manufacturing line.

More powerful than your traditional radios, Sonim PTT enabled devices are built to serve and built to last—even in the harshest environments. Oil and chemical resistant, extreme puncture, drop, scratch and impact proof, and optimized for loud worksites, Sonim delivers devices and accessories that keep workers safe and the supply chain running. All backed by a three year warranty to minimize total cost of ownership.

### Manufacturing partners prefer the Sonim XP3plus 5G, XP5plus 5G and XP Pro
