Sonim Solutions
/Public Safety: Fire + EMS

Reliable communication for a coordinated response.

Serve your community and your team with ultra-rugged devices with true OneTouch Push-To-Talk.

sonim.

PREMIER WIRELESS
BUSINESS TECHNOLOGY SOLUTIONS

Built to serve and connect those who serve and protect, Sonim's ultra-rugged mobile devices work with publicsafety broadband networks to keep workers safe and connected in hazardous, isolated or emergency conditions.

Sonim devices are a powerful evolution of the traditional radio, featuring the multi-shift battery life, charging pins and dedicated OneTouch PTT alongside Sonim SCOUT device management, location and workflow applications and more. Outfit your team with the ultra-rugged smartphones, feature phones and accessories they need to do their job efficiently, safely, and at a low cost-of-ownership.

Public Safety partners prefer the Sonim XP10, XP5plus & XP3plus
