

Sonim Solutions /Public Safety: Law Enforcement

Built to serve those who protect and serve our communities.

Stay connected and stay safe with ultra-rugged devices with true OneTouch Push-To-Talk.

Purpose-built for public safety, Sonim's ultra-rugged mobile devices work with public safety broadband networks to keep workers safe and connected in dangerous, isolated or emergency conditions.

Sonim devices are a powerful evolution of the traditional radio, featuring the familiar battery life, charging pins and dedicated OneTouch PTT alongside Sonim SCOUT device management, location and workflow applications and more. From dispatch to field, outfit your team with the ultra-rugged smartphones, feature phones and accessories they need to do their job efficiently, safely, and at a low cost-of-ownership.

Law enforcement partners prefer the Sonim XP Pro, XP3plus 5G, and XP5plus 5G.

- Dedicated OneTouch PTT
- Ultra-loud audio
- 3-year robust warranty
- All-day power
- Non-Incendive Class I, II, III Div 2 ratings
