

CONNECTED BUS A FULLY CONNECTED TRANSPORTATION ECOSYSTEM

Routing. Safety. Communication. Visibility.
All working together — not in silos.

The Challenge

Transportation teams are responsible for more than routes and schedules.

They manage:

- ✓ Student and driver safety
- ✓ Emergency response
- ✓ Parent communication
- ✓ Driver shortages and tight budgets

Disconnected systems create visibility gaps and slow response when it matters most.

The Solution: ConnectEd Bus

ConnectEd Bus brings together the core layers of modern school transportation into one connected ecosystem — designed to grow with your district.

No rip-and-replace.
No unnecessary complexity.

The ConnectEd Bus Solution Stack

Routing & Ridership Crosswalk K-12

- Real-time bus location and route visibility
- Student ridership tracking
- Optimized routing using real-world data
- Reduce unnecessary miles, fuel use, and overtime
- Support preventative maintenance with digital inspections, forms, and vehicle usage data

Why it matters: Smarter routing improves efficiency and creates the foundation for safety.

Real-Time Safety & Visibility

SafeSight™ Bus Cameras

- Live bus video access
- Event alerts and instant playback
- Driver panic button
- No SD cards or delayed footage

Why it matters: See what's happening when it matters — not after the incident.

Driver Communication

Cellular-Based Push-to-Talk

- Reach one driver or the entire fleet instantly
- Clear, reliable audio without radio congestion
- Priority communication during emergencies

Why it matters: Faster, clearer communication reduces confusion and response time.

Onboard Connectivity

Bus Wi-Fi

- Enables live remote camera access
- Provides secure connectivity for students
- Supports on-board learning, especially on trip buses

Why it matters: Connectivity improves student safety, visibility, and transportation operations.

Why Districts Are Moving This Direction

- ✓ Improve student and driver safety
- ✓ Optimize routes and reduce operational waste
- ✓ Make better use of limited drivers and vehicles
- ✓ Simplify technology management
- ✓ Scale solutions over time — not all at once

Safety and efficiency don't have to compete.

ConnectEd Bus

Designed to support district planning cycles, allowing teams to implement solutions in stages as funding, approvals, and operational needs align.

Choose where to start:

- Routing & visibility
- Safety & video
- Communication & connectivity

Build your connected bus roadmap at your pace — aligned with budget and priorities.

Is this already on your roadmap?

- What are your priorities?
- What initiatives are already underway?
- What does your timeline look like?
