

Turn Every School Bus into a Mobile Learning Environment

Secure student Wi-Fi powered by T-Mobile's Network.

The Challenge

Students spend hours each week commuting to school.

Without internet access:

- Homework goes unfinished
- Digital learning tools are unavailable
- Valuable learning time is lost

The Solution

ConnectED Bus Wi-Fi

Transforms your buses into secure mobile hotspots providing:

- Filtered internet access for students
- Real-time connectivity for bus cameras
- Reliable 5G network connectivity
- Coverage inside and around the bus

Key Benefits

- ✓ **Extend Learning Beyond the Classroom** - Students can study and complete assignments during their commute.
- ✓ **Improve Student Equity** - Provide connectivity for students without reliable internet at home.
- ✓ **Enhance Bus Safety** - Real-time internet connectivity enables remote access to bus cameras.
- ✓ **Fundable Through E-Rate** - Reduce implementation costs through federal funding programs.

Ideal Use Cases

Long student
commute
routes

Rural school
districts

Athletic
travel and
field trips

District
digital equity
programs
