

## Cellular Connectivity for Critical Systems

Keep dispatch, phones, and field systems online.

Simplifi Connect II paired with the VoiceLink adapter replaces outdated copper POTS lines with secure cellular connectivity powered by T-Mobile 5G. Together, they keep alarms, fire panels, gates, and critical systems online — without relying on unreliable landlines.

### Key Features

- ✓ Replaces legacy copper POTS lines
- ✓ Cellular-based connectivity — no landline required
- ✓ Supports, phones, fax machines, alarms, fire panels, gates, access control
- ✓ Fast & Easy Install — just plug it in
- ✓ Manage all devices across sites, from one portal

### Field Service Benefits:

- Support remote yards, warehouses, and job sites
- Keep alarms, gates, and fire panels online
- Prevent outages across critical systems
- Maintain life-safety connectivity
- Avoid rising copper line costs
- Reliable connectivity during ISP outages

Delivered by Premier Wireless, powered by T-Mobile 5G Network

Modernize your connectivity. Eliminate copper.
