

Mobile Computing for Field Operations

Powerful performance. Built for the field. Powered by 5G.

Field teams need reliable computing that works as hard as they do. The 5G Evolve III laptop delivers durable, high-performance mobility for technicians, supervisors, and dispatch — in the office, vehicle, or on-site. Built for real-world operations, it combines powerful computing with integrated 5G connectivity to keep teams productive wherever work happens.

Key Features

- ✓ Lightweight, durable design for field environments
- ✓ 8 GB RAM for reliable multitasking
- ✓ 256 GB internal storage for applications and field data
- ✓ Windows 11 operating system
- ✓ Integrated 5G connectivity for mobile productivity

Field Service Benefits:

- Complete jobs faster with real-time access to systems
- Create estimates and invoices directly on-site
- Reduce delays caused by paperwork and manual processes
- Stay productive anywhere — office, vehicle, or job site

Delivered by Premier Wireless, powered by T-Mobile 5G Network
Give your teams the right tools to work anywhere.
