

## EverLink-To-Go: Your Network. Anywhere You Need It.

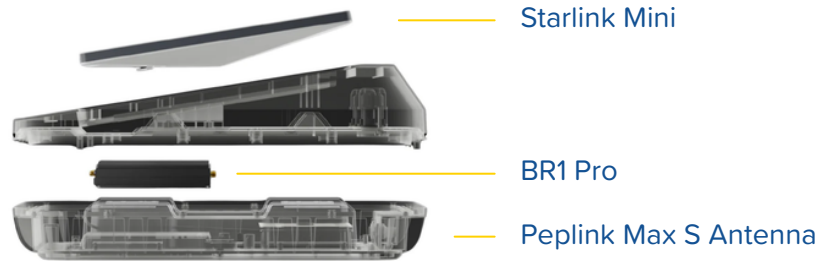

A portable, rapid-deployment connectivity solution designed to deliver secure, reliable internet — anywhere your operations take you.

### What is Everlink-to-Go?

EverLink-To-Go is a fully portable, “network-in-a-box” that combines cellular, Wi-Fi, and optional satellite connectivity into one deployable system — enabling teams to stay connected in the field, during emergencies, or in temporary environments.

### What’s Included

- Peplink BR1 Pro Enterprise Router
- MAX S High-Performance Antenna
- Starlink Mini
- Rugged, portable enclosure (Pelican-style)
- Integrated multi-network connectivity platform
- Professional installation available

### Why organizations rely on Everlink-to-Go

- ✔ **Deploy Anywhere, Instantly**  
Set up connectivity in minutes — no infrastructure required.
- ✔ **Multi-Network Resilience**  
Automatic failover between cellular and satellite when needed.
- ✔ **Connectivity Without Limits**  
Operate in urban, rural, or completely remote environments.
- ✔ **Secure, Enterprise-Grade Network**  
Encrypted, managed connectivity for mission-critical operations.

## Where Everlink-to-Go makes the difference

**Emergency response & disaster recovery**

**Temporary job sites & mobile operations**

**Events, pop-ups, and field deployments**

**Research and remote data collection**

**Off-site teams and mobile command centers**

### How to deploy

#### Cellular-First Deployment

Best for areas with reliable LTE/5G coverage

→ Lower cost, fast deployment

#### Hybrid Deployment (Cellular + Satellite)

Best for remote or mission-critical environments

→ Ensures connectivity when networks fail

**If there's no network — you bring it with you.**

### Proven performance features

- ✓ LTE/5G + Satellite (optional) connectivity
- ✓ Rapid deployment (minutes, not days)
- ✓ Portable, rugged design
- ✓ Centralized network management
- ✓ Scalable across teams and deployments
