

EverLink for Parks, Wildlife & Conservation Connectivity Across the Environments You Protect

Vehicle-based and portable connectivity solutions designed to keep conservation teams, field officers, and researchers connected — even in the most remote environments.

The areas you protect are often the hardest places to stay connected.

- Remote terrain with no coverage
- Teams working alone in the field
- Limited or no communication infrastructure

But safety, coordination, and data don't stop there.

What is Everlink?

EverLink is a flexible connectivity ecosystem that provides reliable internet access and communications in virtually any environment—from permanent facilities and vehicle fleets to remote sites, field operations, and portable deployments.

What's Included

- EverLink Mobility (vehicle-based system)
- EverLink-To-Go (portable network-in-a-box)
- LTE/5G + Starlink Mini
- Multi-network failover platform
- Rugged, field-ready hardware
- Professional installation available

Why conservation teams rely on Everlink

✔ Stay Connected in Remote Environments

Operate across parks, forests, and conservation areas without losing communication

✔ Multi-Network Resilience

Automatic failover between cellular and satellite ensures coverage in dead zones

✔ Enhance Field Safety

Support lone workers with reliable communication in high-risk environments

✔ Enable Real-Time Data Collection

Transmit research, tracking, and reporting data from the field

Where Everlink makes the difference

**Wildlife
conservation
& tracking**

**Park ranger
operations**

**Environmental
field research**

**Remote patrol
and
enforcement**

**Off-grid
monitoring and
inspections**

Deployment approach

✔ **Mobility (Vehicle-Based)**

Best for:

- Field patrol vehicles
- Conservation enforcement
- Ranger operations

✔ **To-Go (Portable Deployment)**

Best for:

- Remote field camps
- Temporary research sites
- Rapid deployment scenarios

When your work happens off the grid, your connectivity should too.

Proven performance features

- ✔ LTE/5G + Starlink Mini
- ✔ Automatic failover between networks
- ✔ Rugged, field-ready design
- ✔ Portable and vehicle-based deployment
- ✔ Centralized connectivity management
- ✔ Scalable across teams and regions

Keep Conservation Teams Connected — Anywhere They Operate
