Stop Readmissions Before They Start

Reduce Readmissions. Improve Outcomes.

Hospitals and value-based care organizations are under increasing pressure to improve outcomes while reducing costs.

Remote Patient Monitoring provides continuous insight into patient health after discharge—helping care teams intervene earlier and prevent avoidable readmissions.

This solution combines connected monitoring devices with a centralized care platform—delivering real-time patient data, alerts, and population-level visibility.

Key Features:

- Continuous remote patient monitoring
- Automated data collection and transmission
- Real-time alerts and thresholds
- Centralized platform for population health
- Reliable cellular connectivity

Healthcare Benefits:

- Reduce hospital readmissions
- Support value-based care initiatives
- Improve patient outcomes and satisfaction
- Enable earlier intervention
- Increase post-discharge visibility

Brought to you by Premier Wirless, powered by T-Mobile's network

Improve outcomes with real-time patient visibility.
