Care That Follows Every Resident Home

Extend Care Beyond the Facility

Care doesn't stop when patients leave your direct supervision.

Remote Patient Monitoring enables senior living communities and home health providers to track patient health in real time—without adding operational complexity.

By combining cellular-connected monitoring devices with a centralized software platform, care teams gain continuous visibility into patient vitals from anywhere.

Key Features:

- Cellular-connected devices — no Wi-Fi required
- Automatic real-time vital tracking
- Centralized monitoring dashboard
- Preconfigured device kits for easy deployment
- Real-time alerts for faster response

Healthcare Benefits:

- Improve resident and patient safety
- Reduce hospital readmissions
- Enable proactive, continuous care
- Support caregivers with real-time data
- Enhance patient engagement at home

Brought to you by Premier Wirless, powered by T-Mobile's network

Extend care beyond your walls with real-time patient monitoring.
