Care Team Communication & Workforce Visibility

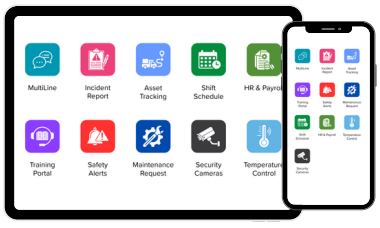

Connected Communication and Real-Time Visibility for Better Care

Across senior living and home care, staff are constantly moving between patients, locations, and shifts. Without clear communication and real-time insight into workforce activity, delays and inefficiencies impact care delivery.

Premier Wireless combines CPR³ Care Coordination Hub with Actsoft workforce management to deliver instant communication and real-time visibility across your entire care team.

Powered by T-Mobile's nationwide network, this solution keeps teams connected, informed, and coordinated—wherever care is delivered.
