# Vehicle Safety Monitoring for Healthcare Transport

## Real-Time Visibility and Safety for Every Transport

Transporting residents and patients requires more than logistics—it requires visibility and safety at every moment. Whether it's senior living communities or home health agencies, teams need to know what's happening inside vehicles and respond quickly when incidents occur.

SafeSight delivers AI-powered video monitoring for healthcare transport vehicles—providing real-time visibility, incident detection, and recorded footage to improve safety and accountability. Powered by T-Mobile's nationwide network, SafeSight keeps drivers, staff, and passengers protected on every trip.

## Key Features

- In-Vehicle HD Cameras – Live video inside and outside vehicles.
- AI Incident Detection – Alerts for unsafe events and behaviors.
- Real-Time Visibility – Monitor trips as they happen.
- Cloud Video Storage – Access and review footage anytime.
- Driver & Passenger Protection – Added accountability on every route.

## Healthcare Benefits

- Improve safety during resident and patient transport
- Monitor driver behavior and in-vehicle activity
- Respond faster to incidents on the road
- Reduce liability with recorded video evidence
- Increase visibility across transportation operations

**Brought to you by Premier Wireless, powered by T-Mobile's network**

**Protect every trip with real-time vehicle visibility.**
