

## Connected Command Vehicles

### Mobile Communication Infrastructure for Disaster Response

#### The Challenge

During disasters, communication often fails  
Emergency teams must operate when

- Networks are congested
- Critical systems fail without warning
- Agencies struggle to remain coordinated
- Command centers must operate from anywhere

#### The Solution

Premier Wireless enables mobile command vehicles with resilient connectivity powered by:

- T-Priority on T-Mobile's 5G network
- Satellite for Failover
- Rapidly deployed portable 5G networks
- Secure Mobile Wi-Fi

This allows emergency teams to maintain communications anywhere.

#### Key Capabilities

- ✔ Mobile command center connectivity
- ✔ Incident coordination platforms
- ✔ Temporary Wi-Fi networks
- ✔ Field team communications
- ✔ Real-time situational awareness

**When communication is critical, failure isn't an option**

Deploy resilient connectivity for emergency response with Premier Wireless + T-Mobile.
