5G Connected Vehicles: Enhanced by T-Priority™

Emergency vehicles are becoming more advanced, with Vehicle-to-Everything (V2X) enabled systems that can monitor vehicle location, speed and condition while transmitting live video.

V2X communication allows vehicles to exchange real-time data with infrastructure, devices and other vehicles—helping first responders stay one step ahead.

The Smarter the Vehicle, the More Data It Needs

Connected vehicles rely on 5G-capable routers to manage large amounts of data quickly and reliably:

- Tablets
- Front and inside cameras
- Laptops
- Printers
- License plate readers
- Live video

As V2X becomes the norm, agencies need 5G-capable routers to help ensure critical data can be transmitted without delay.

5959 Corporate Drive, Suite 1225, Houston, TX 77036

T-Priority

The Power of T-Priority™

Built by T-Mobile and deployed by Premier Wireless, T-Priority™ combines the broad coverage, speed and low latency of the T-Mobile 5G network with high-priority, reliable connectivity to support expanding in-field capabilities.

T-Priority™ Offers:

5X

America's first network slice dedicated for first responders, delivering up to 5X more network resources for connected vehicles.

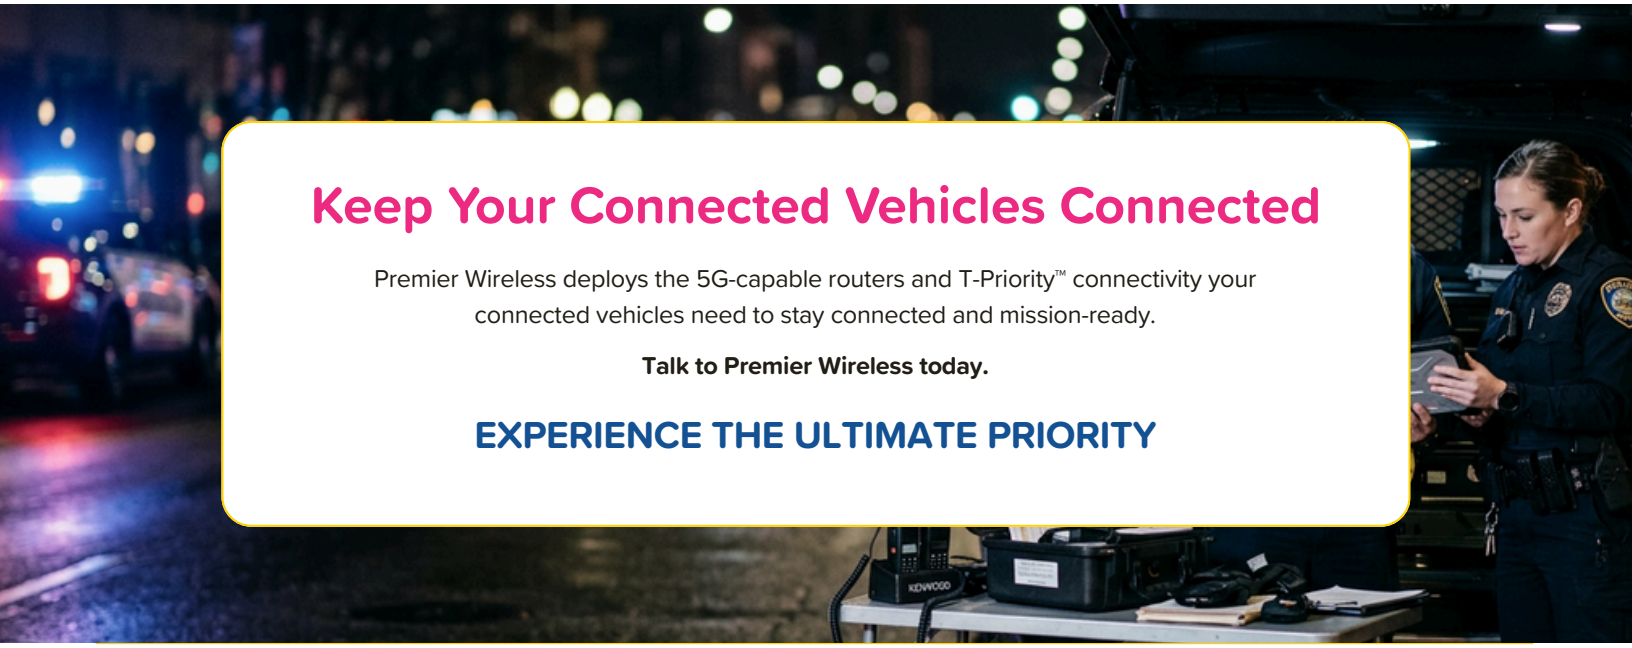

2.5X

Faster all-network speeds on average than other providers to maintain data-intensive communications with low latency.

40%

More 5G capacity for first responders.

Eligible for state and federal grant funding

Keep Your Connected Vehicles Connected

Premier Wireless deploys the 5G-capable routers and T-Priority™ connectivity your connected vehicles need to stay connected and mission-ready.
