T-Priority™ for EMS

Secure, reliable data connectivity is essential for today's EMS operators and hospitals. As connected devices and healthcare technologies evolve, networks need to keep up—especially when congestion puts critical communications and data applications under pressure.

More Connectivity. More Capability.

EMS operators and hospitals rely on connected devices to communicate, access information and operate efficiently.

T-Priority™ helps deliver:

Faster speeds

with a performance baseline 2X faster than previously provided to first responders.

Priority access

and preemption for voice and data, helping keep critical communications and applications running smoothly.

More 5G capacity

for EMS operators and hospitals than other providers.

Better 5G coverage

reaching 98% of Americans across more than 2 million square miles.

Enhanced network security

with security built into every layer of the network.

Eligible for state and federal grant funding.

5959 Corporate Drive, Suite 1225, Houston, TX 77036

T-Priority

The Power of T-Priority™

Built by T-Mobile and deployed by Premier Wireless, T-Priority™ offers the nation's first 5G network slice for first responders and healthcare providers—a dedicated layer of the network designed to prioritize their connectivity when networks are congested.

Expanded Reach with T-Satellite™

When cellular coverage isn't available, T-Satellite™ extends connectivity beyond traditional cellular coverage, providing voice and data coverage for select applications in outdoor areas where you can see the sky.*

Built for EMS.
Delivered by Premier Wireless.

Premier Wireless delivers T-Priority™ to help EMS operators stay connected to the people, devices and data they rely on.

EXPERIENCE THE ULTIMATE PRIORITY
