T-Priority™ for Law Enforcement

Law enforcement agencies rely on secure, reliable connectivity to keep officers, devices and critical data connected. As technology increases network demand, outdated infrastructure can lead to congestion, insufficient speeds and inadequate security.

T-Priority™ delivers the network performance and resources law enforcement agencies need to stay connected—even during congestion.

More Connectivity. More Capability.

Law enforcement relies on connected devices and data applications to communicate, access information and operate effectively in the field.

T-Priority™ helps deliver:

Faster speeds

with a performance baseline 2X faster than previously provided.

Priority access

and preemption for voice and data, helping keep critical communications and applications running smoothly.

More 5G capacity

to support critical law enforcement operations than other providers.

Better 5G coverage

reaching 98% of Americans across more than 2 million square miles.

Enhanced network security

with security built into every layer of the network.

Eligible for state and federal grant funding.

5959 Corporate Drive, Suite 1225, Houston, TX 77036

T Priority

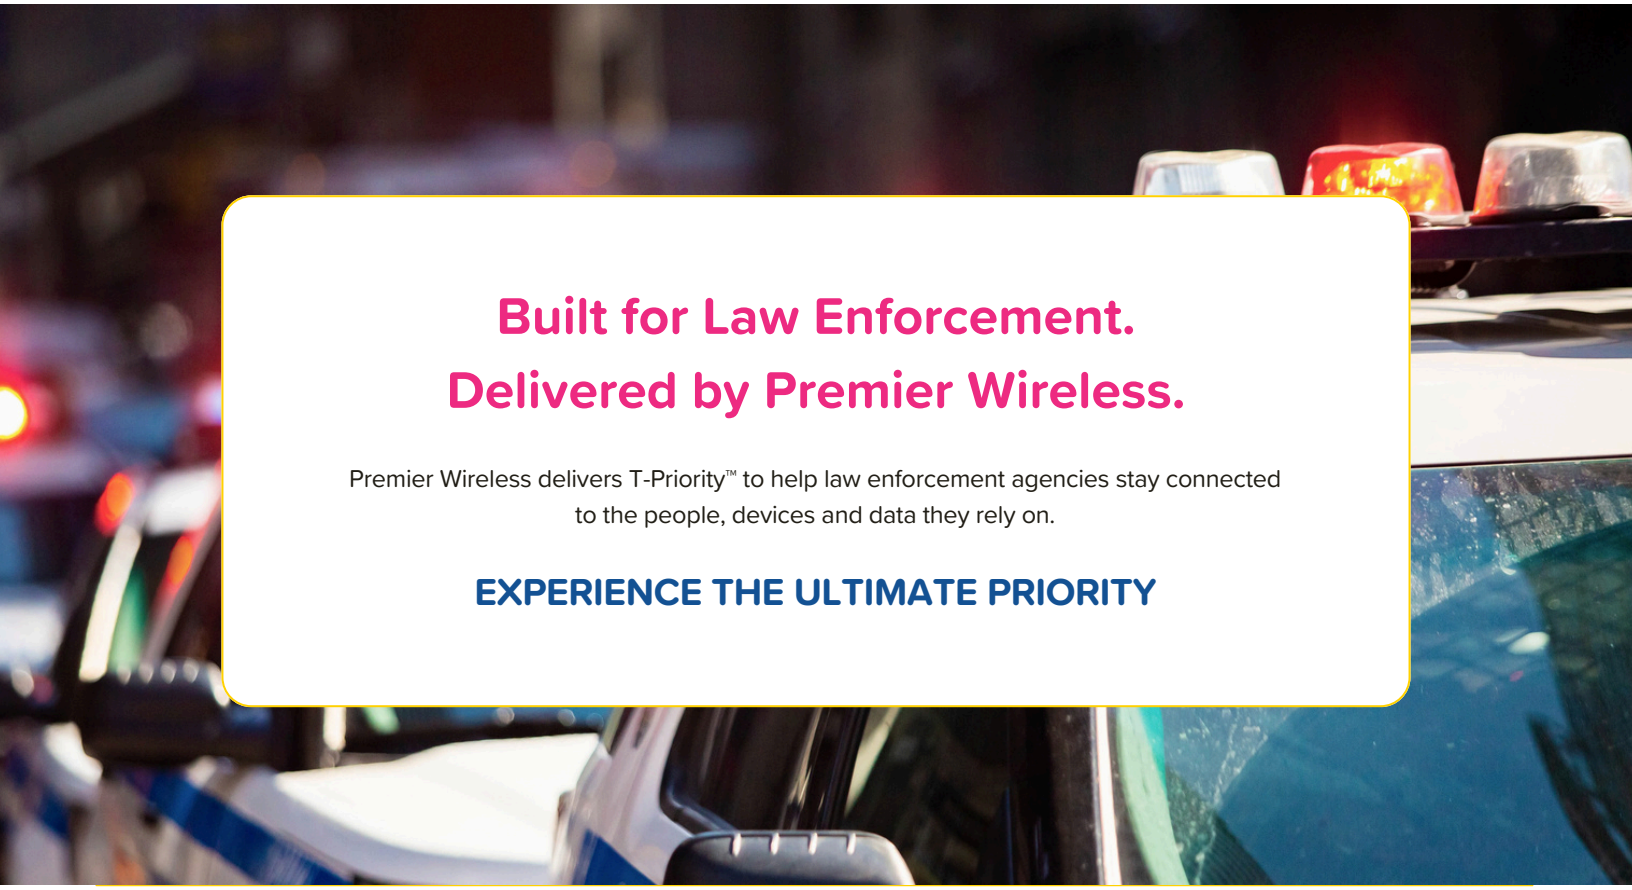

The Power of T-Priority™

Built by T-Mobile and deployed by Premier Wireless, T-Priority™ offers the nation's first 5G network slice for first responders—a dedicated layer of the network designed to prioritize their connectivity when networks are congested.

With 5G Standalone, T-Priority™ provides dedicated network resources to first responders, helping law enforcement agencies stay connected and operate efficiently—even during congestion.

Expanded Reach with T-Satellite™

When cellular coverage isn't available, T-Satellite™ extends connectivity beyond traditional cellular coverage, providing voice and data coverage for select applications in outdoor areas where you can see the sky.*

Built for Law Enforcement. Delivered by Premier Wireless.

Premier Wireless delivers T-Priority™ to help law enforcement agencies stay connected to the people, devices and data they rely on.
