# T-Priority™ for Transportation & Logistics

Transportation and logistics organizations rely on secure, reliable connectivity to keep vehicles, teams, devices and critical data connected. As connected technologies increase network demand, outdated infrastructure can lead to congestion, insufficient speeds, inadequate security and networks that can't keep up with evolving mobility needs.

**T-Priority™ delivers the network performance and resources transportation organizations need to stay connected and operate efficiently—even during congestion.**

## More Connectivity. More Capability.

From connected vehicles to fleet management and real-time data, transportation organizations depend on reliable wireless connectivity to keep operations moving.

**T-Priority™ helps deliver:**

### Faster speeds

with a performance baseline 2X faster than previously provided to first responders.

### Priority access

and preemption for voice and data, helping keep critical communications and applications running smoothly.

### More 5G capacity

to support critical transportation and logistics operations than other providers.

### Better 5G coverage

reaching 98% of Americans across more than 2 million square miles.

### Enhanced network security

with security built into every layer of the network.

### Eligible for state and federal grant funding.

5959 Corporate Drive, Suite 1225, Houston, TX 77036

T-Priority

## The Power of T-Priority™

Built by T-Mobile and deployed by Premier Wireless, T-Priority™ offers the nation's first 5G network slice for first responders and transportation service providers—a dedicated layer of the network designed to prioritize connectivity when networks are congested.

With 5G Standalone, T-Priority™ provides dedicated network resources to first responders, helping transportation and logistics organizations stay connected and operate efficiently—even during congestion.

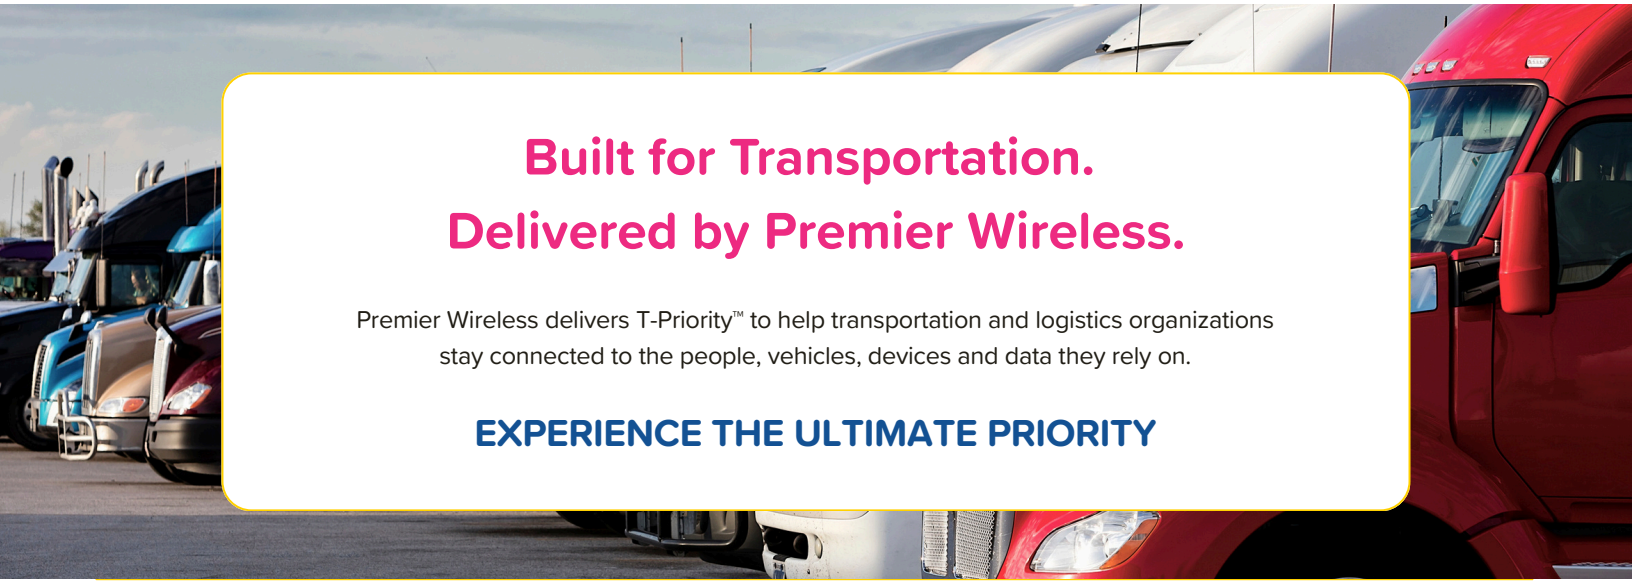

## What It's Built For

Reliable connectivity helps keep modern transportation operations moving.

- Connected vehicles and fleets
- Real-time vehicle and fleet tracking
- Live video and connected cameras
- Dispatch and operational communications
- Cloud-based fleet and logistics systems
- Laptops, tablets and other connected devices

## Expanded Reach with T-Satellite™

When cellular coverage isn't available, T-Satellite™ extends connectivity beyond traditional cellular coverage, providing voice and data coverage for select applications in outdoor areas where you can see the sky.*

## Built for Transportation. Delivered by Premier Wireless.

Premier Wireless delivers T-Priority™ to help transportation and logistics organizations stay connected to the people, vehicles, devices and data they rely on.
