T-Priority™ for Utilities

Utility providers rely on secure, reliable connectivity to keep teams, infrastructure, devices and critical data connected. As connected technologies increase network demand, outdated infrastructure can lead to congestion, insufficient speeds, inadequate security and networks that can't adapt to evolving energy and utility needs.

T-Priority™ delivers the network performance and resources utility providers need to stay connected and operate efficiently—even during congestion.

More Connectivity. More Capability.

From field crews and connected infrastructure to remote monitoring and real-time data, utility providers depend on reliable wireless connectivity to keep critical operations moving.

T-Priority™ helps deliver:

Faster speeds

with a performance baseline 2X faster than previously provided.

Priority access

and preemption for voice and data, helping keep critical communications and applications running smoothly.

More 5G capacity

to support connected manufacturing operations.

Better 5G coverage

reaching 98% of Americans across more than 2 million square miles.

Enhanced network security

with security built into every layer of the network.

Eligible for state and federal grant funding.

T-Priority

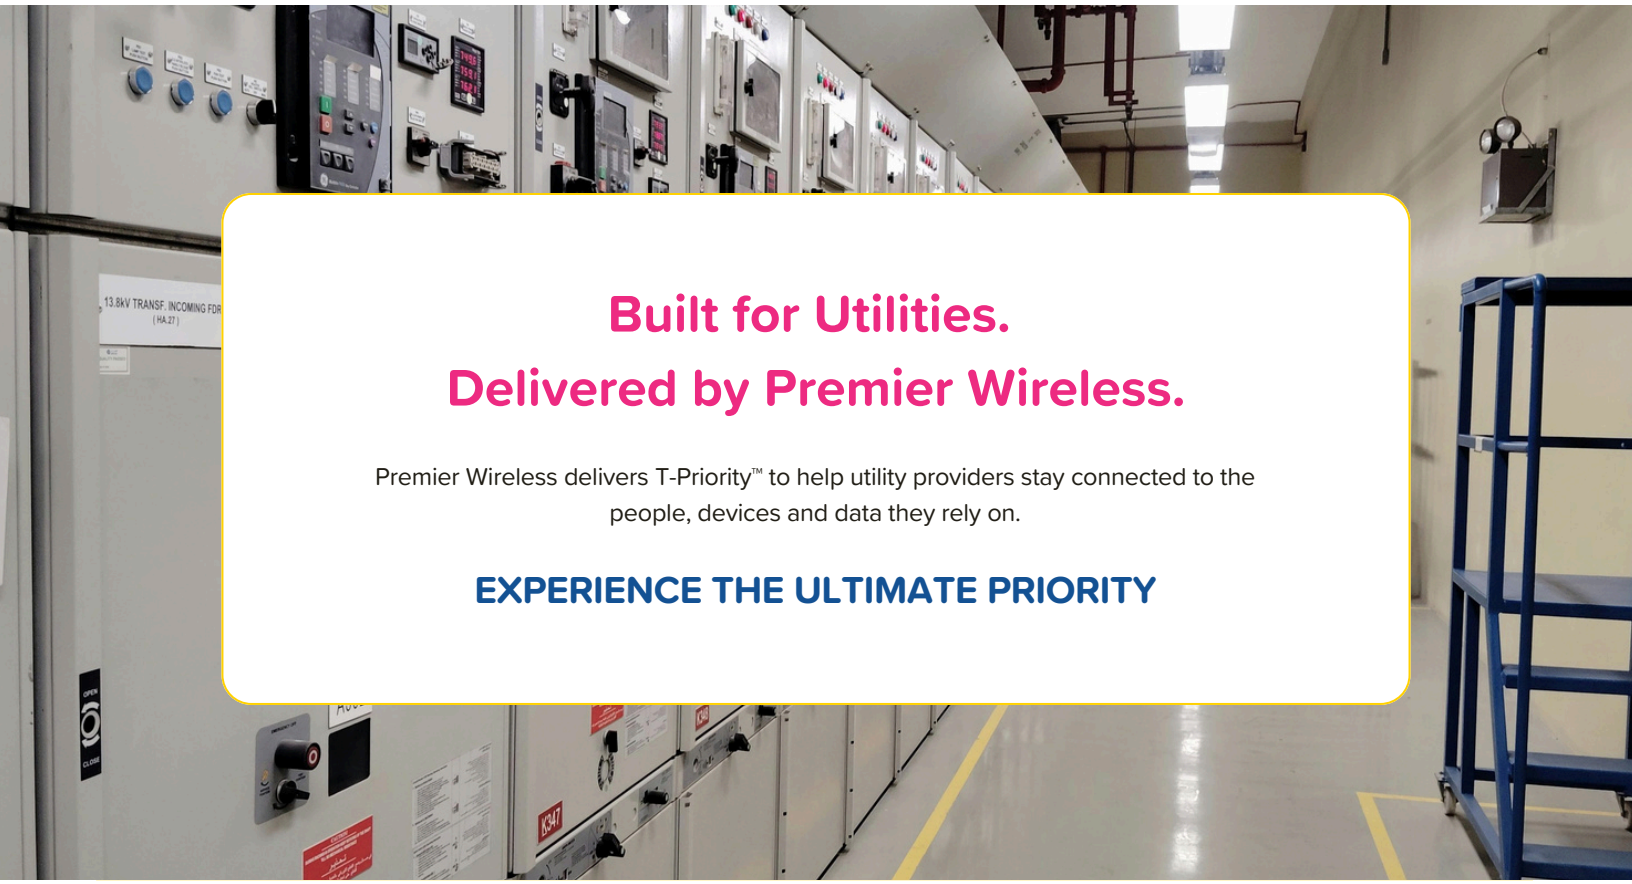

The Power of T-Priority™

Built by T-Mobile and deployed by Premier Wireless, T-Priority™ offers the nation's first 5G network slice for first responders and utility providers—a dedicated layer of the network designed to prioritize connectivity when networks are congested.

With 5G Standalone, T-Priority™ provides dedicated network resources to first responders and utility providers, helping keep critical operations connected when demand is high.

Expanded Reach with T-Satellite™

When cellular coverage isn't available, T-Satellite™ extends connectivity beyond traditional cellular coverage, providing voice and data coverage for select applications in outdoor areas where you can see the sky.*

Built for Utilities.
Delivered by Premier Wireless.

Premier Wireless delivers T-Priority™ to help utility providers stay connected to the people, devices and data they rely on.
