

SIMPLIFI™ FOR UNIVERSITY BLUE LIGHT WALKS

Instant Safety Connectivity — Powered by T-Mobile.

Keep your campus blue light stations connected and ready when it matters most. Simplifi™, from Premier Wireless, delivers plug-and-play connectivity — powered by T-Mobile's nationwide network — bringing safety online anywhere, instantly.

Plug. Power. Protect.

Simplifi makes blue light connectivity as simple as **1-2-3**:

**1****Plug it in**

Pre-configured and ready to connect via T-Mobile's nationwide network.

2**Power up**

Activate in minutes with zero trenching, permits, or IT setup.

3**Protect**

24/7 reliability with built-in failover, monitoring, and remote management.

Key Benefits

- ✓ **Fast Deployment** — Get blue light stations online in minutes.
- ✓ **No Trenching or Fiber Required** — Runs on T-Mobile's nationwide network.
- ✓ **Always-On Reliability** — Dual-SIM redundancy ensures continuous emergency connectivity.
- ✓ **Remote Monitoring & Alerts** — Track uptime and health in real time.
- ✓ **Flexible Power Options** — AC, battery, or solar supported.
- ✓ **Secure Connectivity** — Encrypted link dedicated to safety communication.

Ideal for:

Campus walkways, parking lots, and remote areas

Temporary or mobile blue light stations

Expanding coverage without construction delays

Why Simplifi™ + T-Mobile

Together, Premier Wireless and T-Mobile deliver the most reliable, flexible, and cost-effective way to power campus safety infrastructure.

No trenching. No downtime. No limits.
Just instant connection where safety counts.
