

A Complete Safety Solution for K-12 Schools

The ZeroEyes Safety Package

**Detect Danger
with ZeroEyes**

**Ensure Connectivity
with Internet Failover**

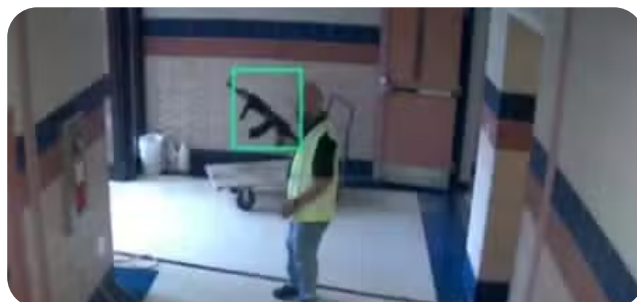

**Command &
Respond with CPR³**

ZeroEyes — AI-Powered Firearm Detection

Proactively detects brandished firearms using your school's existing cameras:

- Human-verified alerts within 3–5 seconds enables security teams and law enforcement to respond immediately.
- Monitors interior and exterior cameras 24/7/365
- Vetted by the Department of Homeland Security

 ZEROEYES

Internet Failover — Always-On Connectivity

Ensures your security systems stay online, when primary internet fails:

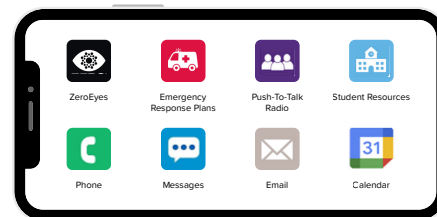

- Keeps ZeroEyes and all safety systems online, even when primary internet fails
- Hot Failover + SpeedFusion instantly switches to cellular with near-zero downtime.

CPR³ Emergency Response Command Center in Your Hand

One device to provide communication and instant access to information & critical resources.

- Fully integrates with ZeroEyes, provides access to radios, student information systems for a unified safety command center across the entire district.
- Provides wireless priority access ensuring communication.

**Ready to build a resilient, integrated
safety network for your school?**
